Jackson rd	4/29/2023	Evening (After 5:00pm)	1 that was hunting. For sure another in my back woods waiting.	Hunting my dog until I noticed and scared it	Other	Around 11:30pm. My dog was outside going to the bathroom when I noticed a coyote hunting him from a close distance. I immediately ran out and scared it before my dog noticed. It could've been a really bad outcome as my dog is around 30lbs.	They live in my back woods somewhere. We see the same family every few weeks running from my front to back yard.
